PROFILE

Final-year IT student at the Central University of Technology with project and coursework experience in software development, networking and database management, and a foundation in IT support from Cisco IT Essentials. Experienced in building web and mobile applications using C#, ASP.NET Core, Flutter, SQL and Supabase. Strong problem-solving skills focused on building reliable technology solutions.

PROJECTS

Skool-Comm Parent Communication Portal

Flutter / Dart / Supabase / ASP.NET Core / PostgreSQL

- Designed the Supabase PostgreSQL database and implemented **Row Level Security (RLS)** policies to ensure parents could only access their own children's data.
- Engineered a secure **Learner Verification Code system** (using PostgreSQL RPCs) to automate parent-child linking, eliminating the need for manual admin approval and preventing duplicate profiles.
- Built the Flutter mobile screens for parent registration, attendance summaries, and real-time **Behavioural Points tracking**, translating the school's 5-level demerit paper system into a digital dashboard.

Student Management System

C# / ASP.NET Core MVC / SQLite / Entity Framework Core

- **Architected a full-stack web app using Onion Architecture** (Domain, Repository, Service, Presentation layers) to ensure separation of concerns and testability.
- **Secured the application using ASP.NET Core Identity** for robust authentication and role-based authorization (Admin, Lecturer, Student).
- **Implemented complex data operations** including CRUD, server-side pagination, sorting, and secure file uploads using Entity Framework Core.

EDUCATION

Diploma in Information Technology

2023–2026

Central University of Technology, Free State

Average: 78% | Golden Key International Honour Society, 2024–2026

Relevant modules

Communication Networks, Databases, Software Development, Technical Programming, Internet Technologies, Web Content Management, Software Engineering

TECHNICAL SKILLS

Languages: C#, Dart, HTML, CSS

Frameworks: ASP.NET Core MVC, Entity Framework Core, Flutter

Databases: SQL, SQLite, Supabase / PostgreSQL

Networking: CCNA Introduction to Networks, IP addressing and subnetting, router and switch configuration, Cisco Packet Tracer, troubleshooting

Operating system: Linux

Tools: Visual Studio 2022, Git and GitHub, Figma, Cisco Packet Tracer, Microsoft Project

CERTIFICATIONS

- IT Essentials: PC Hardware and Software, Cisco Networking Academy (2025)
- Introduction to Data Science, Cisco Networking Academy (2025)
- Introduction to Cybersecurity, Cisco Networking Academy (2026)

LANGUAGES

English | IsiZulu
